MEMORANDUM OF UNDERSTANDING

BETWEEN

**MEENAKSHI SUNDARARAJAN ENGINEERING COLLEGE
CHENNAI**

AND

**VIRDHI TECH LAB PVT. LTD.
CHENNAI**

JANUARY – 2022

This memorandum of understanding (MOU) is made and entered on Date.....
by and between Viridhi Tech Lab Pvt Ltd., (Reg. No. U72900TN2017.....), #15, PTC 11 9768
Gopalakrishnan Street, Lane of Vandikaran Street, Adambakkam, Chennai - 88.
Tamilnadu, India. (VT) of one part and Meenakshi Sundararajan Engineering College,
363, Arcot Road, Kodambakkam, Chennai – 600 024, Tamilnadu (MSEC) (affiliated to
Anna University) of the other part.

VT and MSEC are referred to as the Party individually and as Parties together under this MOU.

VT's objective is to help their customers translate their innovative ideas into a viable software product.

Whereas the MSEC is engaged in academic teaching and providing formal education to students leading to a nationally and internationally recognized under-graduate program and graduate program in various engineering services in addition to shaping them to become effective citizen and a holistic human.

NOW THEREFORE, for the purpose of working with MSEC to engage students and impart corporate learning and on the terms and subject to the conditions set forth in this MOU and intending to be legally bound, the parties agree as follows:

Objectives:

The parties to this Memorandum have the following objectives:

1. To assure right delivery of the quality service at the appropriate time by the competent resource persons to the stakeholders;
2. To assure the application of services in a systematic method for the knowledge and skill development of the stakeholders;
3. To provide and to coordinate effective and efficient services to their stakeholders.

Services:

The VT agrees to provide few or all of the following services:

College centric:

1. Knowledge Transfer of technology.
2. Sponsoring delegates to support in the academic development of the Institution.
3. Curriculum review to plan for implementation of suitable Value added Courses to meet future challenges.
4. Support and mentor in research and training activities.
5. To provide guidance and support for the development of infrastructure.

Faculty centric:

1. Training for teaching faculty and other technical support staff.
2. To offer support to other activities related to academics whenever needed/ necessary to the staff at the premises of MSEC and also in the premises of Virdhi Tech Lab Pvt Ltd.
3. Support for industrial visits to faculty to learn specific technologies directly from IT professionals working in those areas.

Student centric:

1. Mentoring support for students' project work.
2. Delegation of Resource persons for academic Activities.
3. Demonstration of new equipment's / software.
4. Providing Sponsorship for projects.
5. Support for industrial visits to students to understand specific technologies directly from IT professionals working in those areas.
6. Support for in-plant training for students.
7. Providing Sponsorship fund for scholarships/ symposium/ conference/ workshop/ seminars.
8. Providing placement to students.

Company centric:

MSEC agrees to provide the following services,

1. To develop software solutions for the organization as part of student's project work.
2. Transfer of knowledge.
3. Training to employees at the MSEC premises
4. Training to employees at the premises of VT.
5. The VT will be displayed in banners or along with logos of MSEC in college technical event.
6. Students contribute to the industries under VT by doing summer projects or mini projects in MSEC premises or in VT premises.
7. The fact of this MOU with VT and the contribution of VT to MSEC through this MOU may be mentioned in functions organized by MSEC.
8. It is effective upon signing and shall remain in effect until termination by either party with 30 days' written notice.

VT and MSEC staff shall meet at regular intervals convenient to both parties either in person or on-line to review implementation of this agreement, to address special problems, to coordinate schedules, for evaluation and assessment, and to establish policy directives.

VT and MSEC will maintain documentation of services provided and other statistical and financial information as needed for accountability and analysis purpose.

Both parties to this Memorandum agree to develop common reporting instruments wherever possible. In any event they intend to confer on the development of formats of other elements of their respective Systems.

Both parties shall safeguard the use of and access of information to which the services provided or arranging for services shall not use or release any reports, data or other information in accordance with the rules and regulations of VT and MSEC. Such information shall be used only to assure proper planning, coordination, monitoring and

administration of performance under this agreement, and permit the transfer of records to another, for the purpose of continuing services, with appropriate approval from the authority concerned.

Service audit and program review functions shall be performed jointly when appropriate. Both parties mutually agree not to use the name of the other party in any public information without permission of the concerned party.

Review of this memorandum shall be made on or before 3 months before expiry at which time this agreement may be extended or modified.

VT and MSEC hereby agree to all of the above and enter into a joint agreement until such time that either party shall amend or review the said agreement in writing.

MOU between MSEC and NIQR CHENNAI BRANCH

This memorandum of understanding (MOU) is made and entered on 24-03-2022 by and between **NIQR CHENNAI BRANCH**, New 80/69, Nungambakkam High Road, Nungambakkam, Nungambakkam, Chennai, Tamil Nadu 600034 of one part and **Meenakshi Sundararajan Engineering College, 363, Arcot Road, Kodambakkam, Chennai – 600 024 (MSEC)** (Affiliated to Anna University) of the other part

Both **NIQR CHENNAI BRANCH** and **MSEC** are referred to as the Party individually and as Parties together under this MOU.

Whereas the NIQR CHENNAI BRANCH is engaged in the business to promoting quality as a way of life in Indian industry and service organisation .

Whereas the **MSEC** is engaged in academic teaching and providing formal education to students leading to a nationally and internationally recognized under-graduate program and graduate program in various engineering services in addition to shaping them to become effective citizen and a holistic human.

NOW THEREFORE, for the purpose of working with **MSEC** to engage students and impart corporate learning and on the terms and subject to the conditions set forth in this MOU and intending to be legally bound, the parties agree as follows:

Objectives:

The parties to this Memorandum have the following objectives:

1. To assure right delivery of the quality service at the appropriate time by the competent resource persons to the stakeholders;
2. To assure the application of services in a systematic method to have fruitful assessment of the stakeholders;
3. To provide and to coordinate effective and efficient services to their stakeholders.

MOU between MSEC and NIQR CHENNAI BRANCH

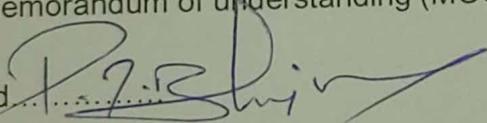

Both parties shall safeguard the use of and access of information to which the services provided or arranging for services shall not use or release any reports, data or other information in accordance with the rules and regulations of **NIQR CHENNAI BRANCH** and **MSEC**. Such information shall be used only to assure proper planning, coordination, monitoring and administration of performance under this agreement, and permit the transfer of records to another, for the purpose of continuing services, with appropriate approval from the authority concerned.

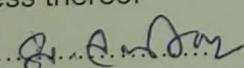

Service audit and program review functions shall be performed jointly when appropriate. Both parties mutually agree not to use the name of the other party in any public information without permission of the concerned party.

Review of this memorandum shall be made on or before 3 months before expiry at which time this agreement may be extended, modified or terminated.

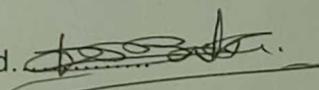

NIQR CHENNAI BRANCH and **MSEC** hereby agree to all of the above and enter into a joint agreement until such time that either party shall amend or review the said agreement in writing.

CHENNAI

12-04-2022

MOU between MSEC and INDUS ENGINEERING ENTERPRISES

This memorandum of understanding (MOU) is made and entered on 12-04-2022 by and between **INDUS ENGINEERING ENTERPRISES**, 1ST FLOOR, #79, (OLD #38), MOORE STREET, CHENNAI - 600001 of one part and **Meenakshi Sundararajan Engineering College**, 363, Arcot Road, Kodambakkam, Chennai – 600 024 (MSEC) (Affiliated to Anna University) of the other part.

Both **INDUS ENGINEERING ENTERPRISES** and **MSEC** are referred to as the Party individually and as Parties together under this MOU.

INDUS ENGINEERING ENTERPRISES deals in Supplies & Equipment's for all kinds of Industry also Indus Engineering Enterprises is a leading Manufacturer, Supplier of Educational Training Equipment's, Analog / Digital Meters etc.

Whereas **MSEC** is engaged in academic teaching and providing formal education to students leading to a nationally and internationally recognized under-graduate program and graduate program in various engineering services in addition to shaping them to become effective citizen and a holistic human.

NOW THEREFORE, for the purpose of working with **MSEC** to engage students and impart corporate learning and on the terms and subject to the conditions set forth in this MOU and intending to be legally bound, the parties agree as follows:

Objectives:

The parties to this Memorandum have the following objectives:

1. To assure right delivery of the quality service at the appropriate time by the competent resource persons to the stakeholders;
2. To assure the application of services in a systematic method to have fruitful assessment of the stakeholders;
3. To provide and to coordinate effective and efficient services to their stakeholders.

MOU between MSEC and INDUS ENGINEERING ENTERPRISES

Both parties to this Memorandum agree to develop common reporting instruments wherever possible. In any event they intend to confer on the development of formats of other elements of their respective Systems.

Both parties shall safeguard the use of and access of information to which the services provided or arranging for services shall not use or release any reports, data or other information in accordance with the rules and regulations of **INDUS ENGINEERING ENTERPRISES** and **MSEC**. Such information shall be used only to assure proper planning, coordination, monitoring and administration of performance under this agreement, and permit the transfer of records to another, for the purpose of continuing services, with appropriate approval from the authority concerned.

Service audit and program review functions shall be performed jointly when appropriate. Both parties mutually agree not to use the name of the other party in any public information without permission of the concerned party.

Review of this memorandum shall be made on or before 3 months before expiry at which time this agreement may be extended, modified or terminated.

INDUS ENGINEERING ENTERPRISES and **MSEC** hereby agree to all of the above and enter into a joint agreement until such time that either party shall amend or review the said agreement in writing.

23-03-2022

MOU between MSEC and ELETRO TECH SYSTEMS

This memorandum of understanding is made on **23-03-2022** by and between **Electro tech systems** and **Meenakshi Sundararajan Engineering College**. It is effective upon signing and shall remain in effect until termination by either party with 30days written notice.

This memorandum of understanding is designed to reflect the understanding between **Electro tech systems** hereinafter referred **Electro tech systems**, providing/coordinating services to the staff and students and/or developing infrastructure facilities of **Meenakshi Sundararajan Engineering College** (self-financing Educational Institution) hereinafter referred (**MSEC**) affiliated to **Anna University**.

Objectives:

The parties to this Memorandum have the following common objectives:

1. To assure right delivery of the quality service at the appropriate time by the competent resource persons to the stakeholders;
2. To assure the application of services in a systematic method to have fruitful assessment of the stakeholders;
3. To provide effective and efficient services to their stakeholders.

Services:

The **Electro tech systems** agree to provide few of the following services:

1. Transfer of technology
2. Sponsoring official as member in the academic development committee of the **MSEC**.
3. Curriculum review to plan for implementation of suitable programs to meet future challenges.
4. Creating research and training cells to enhance the image and widen the sphere of technical knowledge.

MOU between MSEC and ELETRO TECH SYSTEMS

Review of this memorandum shall be made on or before 3 months before expiry at which time this agreement may be extended, modified or terminated.

Electro tech systems and MSEC hereby agree to all of the above and enter into a joint agreement until such time that either party shall amend or review said agreement in writing.

TOYCATHON

- Students of MSEC grabbed the unique opportunity to conceptualize novel toys and games based on Indian civilization and history by participating in TOYCATHON,an initiated by our Hon'ble Prime Minister, Shri. Narendra Modi under the 'Aatma Nirbhar Bharat Abhiyan.
- A total of 7 teams participated in the event and 3 of them entered the final round.
- An innovative team named MSEC(Magnificent Sustainable Engineers under Construction) along with their team mentor Mr.S Elangovan participated and won the competition by making V-Mult calculator which is used to solve 2 and 3 digits multiplication.
- Another team which entered finals through digital mode is the Coin conqueror team.

RADIATION EXPOSURE LEVEL MONITOR FOR PROXIMITY WORKERS

- Innovation starts with spotting a need. With this idea in mind, a very innovative project called Radiation Exposure Level Monitor For Proximity Workers which solely focuses on improving the lives of proximity works of nuclear power plants has been proposed by the students of MSEC in the guidance of Dr. Srinivas Talabutta an Associate Professor of Electrical Communication Engineering.
- The project was proposed in Foundation for Advancement of Education and Research (FAER) and is currently in its research and funding state.
- The objective of the project is to focus on the maintenance workers working in nuclear power plants are exposed to nuclear radiation in the long run, despite precautions.
- In some cases, the dosage of nuclear radiation can increase which might create the risk of side effects such as cancer.
- The ideas has been simulated using Proteus 8 Professional 8.6 software.

LOW COST PORTABLE VENTILATOR FOR COVID-19 PATIENTS

- Low Cost Portable Ventilator for Covid-19 patients that will inspire the budding engineers to benefit the society has been developed by Mr.Kishore Kumaran, an alumnus of MSEC who has signed MOU with MSEC for Engineering services along with six students of MSEC that addresses the issue of rapid spread of covid-19 which resulted in increased demand for respiratory aiding systems. The prototype developed in a bid to bridge the shortage of ventilators was much less than their estimated cost of 11,500/-
- The prototype was build in 17 days and has also been shortlisted by the National Innovation Foundation for its C3 competition.
- The innovative prototype was recognised by the press media and was published in THE HINDU newspaper.

Inspired by Kalam, propelled by dream

All our dreams can come true, if we have the courage to pursue them. The future belongs to those who believe in the beauty of their dreams. Hold fast to dreams, for if dreams die, life is a broken-winged bird that cannot fly... so said former President Abdul Kalam, and in a bid to bridge the shortage of ventilators in the country amid rising cases, a team comprising eight members, emerged with a prototype of the ventilator.

The team includes Kishore Kumaran, undergraduate, and former students of Meenakshi Sundararajan Engineering College.

Ventilator Project Team details:
1. Vasupradha - 3rd Year ECE B
2. Sneha - 3rd Year ECE B
3. Vidhyashree - 3rd Year ECE B
4. Smruthi - 2nd Year ECE B
5. Kartick - 2nd Year ECE A
6. Thulasiram - ECE 2019 Batch
7. Yashwanth - ECE 2019 Batch

Chennai, April 26:
We have all been thrown into a new environment, terms like social distancing, isolation, green zones and red zones have become common. Large communities around the world are enveloped in fear. Despite these unprecedented difficulties, a group of young minds in Chennai are finding purpose in this moment of crisis.

Kishore Kumaran, an Alumnus of Meenakshi Sundararajan Engineering College, and the founder of Missile Ingeniator, A Research and Product Development start-up, collaborated with students from the same college to develop the prototype of a "Low - Cost Portable Ventilator".

The Ventilator has a pressure monitoring system and works in an assist-control-mode for invasive and non-invasive conditions. It is designed by considering necessary medical parameters such as Respiratory Rate and Inspiration to Expiration Ratio.

"The machine can check breathing rate, blood oxygen levels, and blood pressure levels. These values will be displayed on an Organic Light-Emitting Diode (OLED) screen," says Kishore Kumaran.

There are 4 buttons to set parameters by the doctor according to patient requirements. Upon pressing the START button, two motors start driving piston gears on either side. This, in turn, presses an Artificial Manual Breathing Unit (AMBU) bag depending on the given inputs.

"Based on the inhalation and the exhalation pressure, the doctor can modify the given inputs, and thereby the oxygen supply. A buzzer has also been installed to act as the alarm during emergencies, to indicate any abnormalities," he says.

Amid the lockdown crisis, this simple device is portable and works on low power. "The cost of producing one ventilator is Rs.11,500. It can be plugged into any socket as it consumes only 12 volts of power to run the motor. We are also working on a battery backup for the ventilator," says Kishore.

The rapid spread of COVID 19 has resulted in an increased demand for respiratory aiding systems. In a bid to bridge the shortage of ventilators in the country amid rising cases, a team comprising eight members,

emerged with a prototype of the ventilator. The team includes Kishore Kumaran, undergraduate, and former students of Meenakshi Sundararajan Engineering College.

Vasupradha, a third-year student who has been associated with Missile Ingeniator for one year believes anything is possible if you will put your mind to it. "Apart from having online classes and regular assignments, I wanted to be part of something bigger and prove my abilities. Working every Sunday has paid off," she says.

The first version of their prototype was developed with available components and will be upgraded further in the upcoming versions. The team is now heading towards government and testing laboratories for official guidance to develop the prototype into a functioning product that can serve the mass.

The team expressed their gratitude to doctors for their medical guidance, Tamilnadu Police, Government Officials, and Hardware Suppliers for their constant support throughout the development process. They also thanked Meenakshi Sundararajan Engineering College for supporting them all the way.

M Roshini

The team includes Kishore Kumaran, undergraduate, and former students of Meenakshi Sundararajan Engineering College.

Ventilator Project Team details:
1. Vasupradha - 3rd Year ECE B
2. Sneha - 3rd Year ECE B
3. Vidhyashree - 3rd Year ECE B
4. Smruthi - 2nd Year ECE B
5. Kartick - 2nd Year ECE A
6. Thulasiram - ECE 2019 Batch
7. Yashwanth - ECE 2019 Batch

COVID-19 offers students a chance to showcase their skills

R. Sujatha

CHENNAI, APRIL 22, 2020 17:51 IST
UPDATED: APRIL 22, 2020 17:51 IST

Student groups have come up with apps and low-cost ventilators

Several engineering college students in the city have come up with apps, websites and in some cases, prototypes of low-cost ventilators.

A group of students from Meenakshi Sundararajan Engineering College have developed a prototype for a low cost ventilator (₹11,500) which has now been shortlisted by the National Innovation Foundation for its C3 competition.

Kishore Kumaran, a 2017 batch ECE graduate leads a team of six juniors, four of whom are currently students at the college. It took them 17 days to develop the prototype. "It is an opportunity for shared learning," says Mr. Kishore.

A third year CSE student S.R. Sankar Narayanan has developed a website for tracking COVID-19 <http://coronanewapp.herokuapp.com/>. He uses government data for the purpose.

மீனாட்சி சுந்தரராஜன் என்ஜினீயரிங் கல்லூரி முன்னாள் மாணவர்கள் உருவாக்கினர்

கொரோனா நோயாளியைக் காப்பாற்ற ரூ.11 ஆயிரத்து 500 விலையில் வெண்டிலேட்டர் தாளாளர் பாபாய் பெருமிதம்

சென்னை, ஏப்.22-
கோடம்பாக்கம் மீனாட்சி சுந்தரராஜன் என்ஜினீயரிங் கல்லூரியின் மாணவர்கள் சேர்ந்து ரூ. 2 லட்சம் மதிப்புள்ள கவாசக் (வெண்டிலேட்டர்) ரூ. 11 ஆயிரத்து 500 விலையில் உருவாக்கி படைத்துள்ளனர்.

கல்லூரி தாளாளர் பாபாய் சுந்தரராஜன் ஊக்கமளித்ததால் இது செயல்படுத்தப்பட்டுள்ளது என்று முன்னாள் மாணவரும், மிசைல் இன்ஜினீட்டர் நிறுவன டைரக்டருமான கிஷோர் குமரன் தெரிவித்தார்.
கிஷோர் குமரன் ஒருங்கிணைப்பில் இந்த குழுவில் முன்னாள் மாணவர்கள் சினேகா, வசுபிரதா, ஸ்மருதி, வித்யாபூர், கார்த்திக், துளசிராம், யஷ்வந்த் மற்றும் சாய் பிரகாஷ் பங்கேற்று ஆராய்ச்சி செய்தனர்.
ஏற்கனவே மார்க்கெட்டில் கிடைக்கும் பொருட்களை வைத்து மாத்திரி வெண்டிலேட்டர் உருவாக்கப்பட்டது. இதில் தேவைப்படும் பொது நவீனப்படுத்த வசதியும் சேர்க்கப்பட்டுள்ளது. இந்த மாத்திரி அரசு பரிசோதனை ஆய்வகத்துக்கு

அனுப்பப்பட்டுள்ளது. அங்கீகாரம் கிடைத்தவுடன் தொழில் ரீதியில் உற்பத்தி செய்யப்படும் என்றார் அவர்.
இந்த குழுவினருக்கு மீனாட்சி சுந்தரராஜன் என்ஜினீயரிங் கல்லூரி தாளாளர் பாபாய் சுந்தரராஜன், எலக்ட்ரானிக்ஸ் கம்யூனிகேஷன் துறை பேராசிரியர்கள், ஆராய்ச்சி

பிரிவு நிபுணர்கள் ஆதரவு அளித்தனர் என்றார்.
நுரையீரல் சுவாச பிரச்சினைக்கு துல்லியமாக உதவ இந்த வெண்டிலேட்டர் உதவும். பல்வேறு டிஜிட்டல் கணக்கீடு கருவிகள் இதில் உள்ளன.

SUPPORTING RURAL AREA THROUGH AGRO-ENTERPRISE DEVELOPMENT

- Urban and rural areas can benefit from each other if well connected. With the desire to improve the lives of rural area workers who not only suffer from lack of resources and assets, but also are affected by major changes in the agricultural sector brought about by globalization and market integration, students of MSEC Vasupradha S and Sneha M have come up with an idea to support rural areas through agro-enterprise development providing a web application based solution.
- It provides policy advice and technical assistance related to market-oriented farming and small- and medium-scale agroenterprise development.
- Objectives –
 - Recognize and adjust to trends in farm commercialization .
 - Develop reliable farm-to-market and farm-agribusiness linkages
 - Establish roles of the public sector as service providers in marketing and business management.
 - Provide the private sector essential marketing, finance, business and input supply services.
 - Support producer organizations
 - Overcome constraints to participation in export and high value product market channels.
- The idea has also received VISHWAKARMA award.

INVADER AND SPARROW

- Another innovation by young MSECians with a desire to raise the perspective towards developing advanced ideas is an innovation called SPARROW and INVADER designed with the technical support of HYORISTIC INNOVATIONS PVT LTD.
- The innovation by TEAM INVADER ranked 290th in 2020 by the International Rover Design Challenge (IRDC).
- Team INVADER won 26th by competing with top universities worldwide.
- The team has participated in events like MARS SOCIETY South Asia and International Rover Challenge.
- Team SPARROW is going to be a part of International Planetary Aerial System Challenge.

COGNIZANT'S "THE BIG IDEA 2K17" CONTEST.

A team from Meenakshi Sundararajan Engineering College won the title award at Cognizant's "The Big Idea 2k17" contest.

S. Vasudharini and D. Praveen from the Electrical and Electronics Engineering Department bagged the **first place** and won a host of prizes, including a mentorship certificates exclusive for Cognizant.

The Big Idea contest is organised by Cognizant in a bid to search for and promote creativity and innovation among young talent. The contest was based on themes such as Future Database Systems, Migration of Software Platforms, Software Programs Of 2030 and New Emerging Technologies. The contestants were required to go through two rounds of examinations.

According to a press release, the college emerged victorious from among 23 institutions which participated in the final rounds.

While the contest kick-started with an online idea submission round that saw the participation of nearly 2,000 students, 10 teams competed in the idea presentation round which was held on October 7.

MEMORANDUM OF UNDERSTANDING

BETWEEN

**MEENAKSHI SUNDARARAJAN
ENGINEERING COLLEGE
CHENNAI**

AND

**VIVEGAM TECHNOLOGY SOLUTIONS
KODAMBAKKAM, CHENNAI**

31-01-2022

MOU between MSEC and VIVEGAM TECHNOLOGY SOLUTIONS

This memorandum of understanding (MOU) is made and entered on 31-01-2022 by and between **VIVEGAM TECHNOLOGY SOLUTIONS**, No.3 second floor Sai complex, Station view road Kodambakkam Chennai-24 of one part and **Meenakshi Sundararajan Engineering College, 363, Arcot Road, Kodambakkam, Chennai – 600 024 (MSEC)** (Affiliated to Anna University) of the other part

Both **VIVEGAM TECHNOLOGY SOLUTIONS** and **MSEC** are referred to as the Party individually and as Parties together under this MOU.

Whereas the **VIVEGAM TECHNOLOGY SOLUTIONS** is engaged in the business of Service Provider of callogic android gsm auto dialer, wifi hotspot solutions.

Whereas the **MSEC** is engaged in academic teaching and providing formal education to students leading to a nationally and internationally recognized under-graduate program and graduate program in various engineering services in addition to shaping them to become effective citizen and a holistic human.

NOW THEREFORE, for the purpose of working with **MSEC** to engage students and impart corporate learning and on the terms and subject to the conditions set forth in this MOU and intending to be legally bound, the parties agree as follows:

Objectives:

The parties to this Memorandum have the following objectives:

1. To assure right delivery of the quality service at the appropriate time by the competent resource persons to the stakeholders;
2. To assure the application of services in a systematic method to have fruitful assessment of the stakeholders;
3. To provide and to coordinate effective and efficient services to their stakeholders.

MOU between MSEC and VIVEGAM TECHNOLOGY SOLUTIONS

Both parties shall safeguard the use of and access of information to which the services provided or arranging for services shall not use or release any reports, data or other information in accordance with the rules and regulations of VIVEGAM TECHNOLOGY SOLUTIONS and MSEC. Such information shall be used only to assure proper planning, coordination, monitoring and administration of performance under this agreement, and permit the transfer of records to another, for the purpose of continuing services, with appropriate approval from the authority concerned.

Service audit and program review functions shall be performed jointly when appropriate. Both parties mutually agree not to use the name of the other party in any public information without permission of the concerned party.

Review of this memorandum shall be made on or before 3 months before expiry at which time this agreement may be extended, modified or terminated.

VIVEGAM TECHNOLOGY SOLUTIONS and MSEC hereby agree to all of the above and enter into a joint agreement until such time that either party shall amend or review the said agreement in writing.

The memorandum of understanding (MOU) is made on this 31-01-2022, at CHENNAI

23-03-2022

MOU between MSEC and ULAGINOLI ENERGY SOLUTIONS

This memorandum of understanding is made on **23-03-2022** by and between **Ulaginoli Energy Solutions** and **Meenakshi Sundararajan Engineering College**. It is effective upon signing and shall remain in effect until termination by either party with 30days written notice.

This memorandum of understanding is designed to reflect the understanding between **Ulaginoli Energy Solutions** hereinafter referred **Ulaginoli Energy Solutions**, providing/coordinating services to the staff and students and/or developing infrastructure facilities of **Meenakshi Sundararajan Engineering College** (self-financing Educational Institution) hereinafter referred (**MSEC**) affiliated to **Anna University**.

Objectives:

The parties to this Memorandum have the following common objectives:

1. To assure right delivery of the quality service at the appropriate time by the competent resource persons to the stakeholders;
2. To assure the application of services in a systematic method to have fruitful assessment of the stakeholders;
3. To provide effective and efficient services to their stakeholders.

Services:

The **Ulaginoli Energy Solutions** agrees to provide few of the following services:

1. Transfer of technology
2. Sponsoring official as member in the academic development committee of the **MSEC**.
3. Curriculum review to plan for implementation of suitable programs to meet future challenges.
4. Creating research and training cells to enhance the image and widen the sphere of technical knowledge.

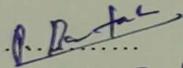

MOU between MSEC and ULAGINOLI ENERGY SOLUTIONS

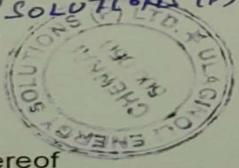

Service audit and program review functions shall be performed jointly when appropriate. Both parties mutually agree not to use the name of the other party in any public information without permission of the concerned party.

Review of this memorandum shall be made on or before 3 months before expiry at which time this agreement may be extended, modified or terminated.

Ulaginoli Energy Solutions and MSEC hereby agree to all of the above and enter into a joint agreement until such time that either party shall amend or review said agreement in writing.
